# Best-in-Class Commercial Painters

TAA Projects provides efficient, professional commercial and industrial spray painting solutions. We work with established business organizations on new construction projects and high-rise buildings, delivering superior finishes that meet the highest industry standards.

**Quality Craftsmanship**

# About Us

TAA Projects is a Dubai-based company providing commercial spray painting and wall painting services since 2021. We specialize in high-quality surface preparation and spray application for commercial and industrial projects. Our experienced team utilizes advanced equipment, premium-grade materials, and proven application techniques to deliver durable, compliant, and high-quality finishes. We manage every project with professionalism, efficiency, and a strong commitment to quality and client satisfaction.

# How We Work

## **Transparent Evaluation**

We conduct thorough and accurate project assessments, with all costs clearly defined from the outset. Our pricing structure is fully transparent, ensuring clarity, accountability, and the elimination of unforeseen variations.

## **Operational Excellence**

We deliver high-quality workmanship through structured processes, skilled personnel, and strict quality control measures. Our focus on precision, efficiency, and compliance ensures consistent results aligned with industry standards.

## **Client-Centric Ethos**

Our operations are driven by a client-focused philosophy. By prioritizing client requirements, clear communication, and reliable execution, we build long-term partnerships based on trust and performance.

# Steel Works

Primary steelwork is subject to deterioration over time, particularly in harsh industrial and environmental conditions. Existing protective coatings can degrade, leading to discoloration, breakdown, and potential loss of performance, including the effectiveness of intumescent and fire-protective coatings. Modern commercial and industrial structures rely heavily on structural steel frameworks to support a wide range of construction materials. As a critical component of the building design and structural integrity, steelwork requires regular inspection, maintenance, and protective coating systems to ensure long-term performance, safety, and compliance with industry standards.

# Block Work Coatings

TAA Projects delivers specialist coating applications for extensive areas of exposed block work within warehouse environments and modern industrial facilities. Our team is equipped to prepare and treat substrates ranging from newly installed fair faced masonry to aged or previously coated block surfaces requiring refurbishment. We utilise high performance industrial coatings and advanced spray application systems to achieve uniform film build, optimal adhesion, and long term durability.

# Walls & Ceiling Plastering

TAA Projects delivers professional internal and external plastering for commercial spaces across Dubai, including shell and core offices and new build developments.

Our specialists apply cementitious, gypsum, and high performance render systems with precise surface preparation and controlled application. We ensure strong adhesion, consistent finishes, and durable results tailored to the specified texture and project requirements.

# Wall Painting

TAA Projects provides comprehensive wall-painting solutions for commercial and industrial environments where spray application is not required. Our team delivers full design and colour-selection support, applying traditional brush and roller techniques enhanced by the latest coating technologies to ensure a durable, high-quality finish. We undertake a wide range of specialist works, including commercial repaints, industrial coating systems, intumescent paint applications, and floor-painting solutions—executed with precision, consistency, and long-term performance in mind.

# Epoxy Floor Coating

TAA Projects delivers a full range of epoxy flooring systems engineered to meet diverse commercial and industrial performance requirements. Our capabilities include decorative epoxy finishes, heavy duty car park traffic coatings, and specialised hygienic or antistatic systems designed for high demand environments. We match each project with the appropriate resin technology, ensuring optimal adhesion, chemical resistance, durability, and long term surface performance—regardless of substrate condition or service exposure.

# Waterproofing Coating Solutions

TAA Projects delivers residential and commercial waterproofing systems for medium to large scale developments across the UAE. Our services cover a full range of protective coating applications designed to safeguard structures against moisture ingress, environmental exposure, and long term deterioration. We specify and apply high performance waterproofing systems tailored to each project's substrate, load conditions, and durability requirements, ensuring reliable, long lasting protection.

# Construction Works

TAA Projects is more than a painting or home-remodeling service — we deliver complete construction solutions across Dubai. Our expertise extends from residential upgrades to full-scale new builds and warehouse construction. With a dedicated, highly skilled team, we manage every stage of your project with precision, reliability, and a commitment to quality. Whatever you're planning, we have the capability and experience to bring it to life.

## Fire-Rated Class A2 ACP Cladding

Our Class A2 fire-rated ACP cladding systems deliver superior safety and performance for external building façades. Manufactured with a non-combustible mineral core, they meet international fire-safety standards and are fully approved by Dubai Civil Defense.

Designed for durability, weather resistance, and architectural versatility, our panels provide a reliable, compliant, and aesthetically refined solution for modern façade applications.

the Best Commercial Coatings  
Company in Dubai**

# The Team

## **Quality You Can Trust**

TAA Projects provides efficient, professional commercial and industrial spray painting solutions. We work with established business organizations on new construction projects and high-rise buildings, delivering superior finishes that meet the highest industry standards.

## **Experience That Matters**

Our team of dedicated specialists brings extensive expertise across the residential and commercial painting sector. With a proven track record in delivering high-standard finishes, we ensure every project is executed with precision, consistency, and professionalism—resulting in reliable, outstanding outcomes every time.

## **On-Time Delivery**

Our streamlined project management and efficient execution methods position TAA Projects to handle workloads of any scale with confidence. By combining smart planning with disciplined delivery processes, we ensure every project is completed within the agreed timeline. Reliability is at the core of our service—we deliver on time, every time.

# Work With Us

TAA Projects applies high bond, fast curing, and hard wearing coating systems designed to achieve smooth, durable finishes across a wide range of commercial and industrial environments. For large scale projects, we collaborate closely with partnering contractors to ensure seamless coordination and efficient project delivery. With our technical expertise and industry insight, TAA Projects provides reliable guidance in selecting the most effective, project specific coating solutions—tailored precisely to your requirements.

'We remain dedicated to upholding the values that define our work on every project we undertake. Our team is always ready to listen to your requirements and discuss your goals—whether over the phone or in person. If you'd like to learn more about how we can support your project, we're happy to arrange a free, no-obligation site visit to meet you and assess your needs'
